DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 04/01/05 has been entered.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

2. Claims 15-21 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. "Claims 15-21 are not limited to tangible embodiments. In view of applicants' disclosure, specification page 6, line 26, the medium is not limited to tangible embodiments, instead being defined as including both tangible embodiments (e.g., low-density parity check code encoder) and intangible embodiments (e.g., computer program). As such, the claim is not limited to statutory subject matter and is therefore non-statutory."

Allowable Subject Matter

3. Claims 1-14 and 22-42 are allowed.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Chen et al. teach utilization of a parity check matrix and generation of a parity bits.

Morioka et al. teach generation of parity bits and matrixes for encoding.
